

List< D, P >

```
graph BT; A[ListWithPointer< D, P >] --> B[List< D, P >];
```

The diagram illustrates a relationship between two classes. At the bottom is a white rectangular box with a black border containing the text 'ListWithPointer< D, P >'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a gray rectangular box with a black border at the top, which contains the text 'List< D, P >'. This represents that 'ListWithPointer' inherits from or is a specialization of 'List'.

ListWithPointer< D, P >
